

ORIGINAL JAPANESE AUCTION SHEET

A schematic diagram of a vehicle layout. The central section is labeled 'B1' at the top and 'G' below it. On either side of this central section are two identical side sections, each containing two 'A1' labels stacked vertically. At the very bottom of the central section, there are two 'A1' labels side-by-side. The diagram uses simple lines to represent the structure and circles to represent wheels or connection points.
